

CA Agile Vision™ Team Edition

CA Agile Vision Team Edition is simple to use, yet proven and robust enough to ensure you deliver results from all your agile projects. It makes it easy for all stakeholders to understand what's going on with agile projects, while helping global development teams to be more productive with their backlog.

Business Value

Many organizations have adopted agile software development as an alternative way to speed delivery of better software releases. However, agile development's unique metrics, processes and terminology have made it challenging for employees, executives, and partners who are more familiar with traditional management methods and are confused by solutions made specifically for agile experts. CA Agile Vision Team Edition is different - it is very easy to use, yet robust enough to help everyone collaborate and complete agile projects.

Solution Overview

CA Agile Vision Team Edition is so simple, yet so agile:

- › Make agile easy everywhere by helping team members manage their agile projects, no matter where they are.
- › Keep your team at a sprint by giving them the information they need, when they need it.
- › Provide instant insight into agile projects through easily configurable reports and dashboards that everyone understands.

Delivery Approach

CA Agile Vision is delivered on Force.com, a leading cloud management platform from salesforce.com, and is built in partnership with salesforce.com. When it comes to deploying management software in the cloud, no other organization can provide CA's depth of expertise and breadth of services. With no software or hardware to purchase, install and maintain, users get value in days, not months. This offers you freedom to focus on your organization's goals, instead of struggling with infrastructure, software upgrades and backups.

What's New, What's Compelling?

CA Agile Vision Team Edition offers unique capabilities that make it so easy to use, yet powerful enough to run any agile project:

- **EASY TO USE:** Unlike solutions that are made just for agile experts, CA Agile Vision is easy to use by anyone. Built on the intuitive Force.com platform, CA Agile Vision provides easy personalization, use and reporting.
- **BUILT-IN EXPERTISE:** CA Agile Vision is based on best practices from CA and salesforce.com, two of the industry's most experienced project management and agile development practitioners. CA's project and portfolio management solutions, CA Clarity PPM™, have consistently been recognized by analysts and over 1,100 customers for project management leadership, while salesforce.com has successfully used agile practices for all its releases since 2006.
- **PLATFORM FOR SUCCESS:** CA Agile Vision is extremely easy to deploy, configure and use, so your agile teams can be up and running in just days. Delivered on Force.com, one of the industry's most responsive and secure platforms, CA Agile Vision can reliably manage all your agile projects.

Features

Delivered 100% over the web, CA Agile Vision helps you focus on developing great applications, and not on maintaining the software, hardware and other resources to support them. CA Agile Vision can be quickly deployed and used, yet provides robust agile capabilities:

- Easy-to-configure forms and fields to track any information related to tasks, sprints and backlog
- Intuitive UI and virtual task wall to easily prioritize and share agile information across distributed development teams
- Robust Force.com security to allow people to see only what they need to see
- Easy-to-personalize dashboards with the Force.com platform
- Easy-to-create graphical status reports and dashboards

Benefits

CA Agile Vision is so simple, yet so agile:

- **MANAGE SPRINT BACKLOG:** Deliver more customer commitments by getting teams to quickly capture, find and share information.
- **KEEP THE TEAM PRODUCTIVE:** Reduce training time by using intuitive Force.com platform.
- **MANAGE STAKEHOLDER EXPECTATIONS:** Quickly surface issues with your agile projects through graphical dashboards and reports.

Why CA?

CA provides your organization with the most complete and proven project and portfolio management solutions in the industry today to help you manage all your work. Delivered 100% over the web, CA Agile Vision Team Edition is so simple, yet so agile. CA Agile Vision runs on Force.com, one of the leading cloud management platforms, and is available anywhere, fully secure and rapidly scalable, and supported by world-class facilities and professionals.
